Subject: RE: Early Repayment Offer - Quinto Mining Corp.

Peter,

We have considered the recently announced private placement offering by Mason Graphite with the Company and the Monitor and advise that the Company can no longer proceed with the proposed settlement as the proposed settlement is no longer in the best interests of the Company's stakeholders. Accordingly, deferred payments under the purchase agreement should continue to be paid in accordance with the terms of the purchase agreement.

Yours truly,
Aryo

Peter,

Thanks for this.

Please find attached a clean copy of the slightly revised Settlement Agreement together with a PDF blackline against the draft you circulated. You will note that we have accepted all of your changes, with the exception of the settlement fee payment date which is October 4, 2016 (the day before the next milestone payment is due under the Purchase Agreement). In that regard, I can confirm that we have obtained a September 23, 2016 hearing date and will provide Mason Graphite with 7 business days following granting of the Settlement Approval Order to arrange for payment.

Kindly let us know if we can consider the Settlement Agreement final and proceed to execution.

Kind regards,
Aryo

Without prejudice

The Monitor has now discussed this matter with the company and the company does not accept the proposal set out in your email of July 28, 2016 below. The company is however prepared to accept, subject to any necessary Court approval, a payment of US\$4 million in full and final settlement of the future amounts owing by Mason Graphite, subject to the following conditions:

2. Execution of a definitive settlement agreement by no later than September 2, 2016;

Dear Nigel,

Our previous offer was based on the available cash we had on hand. To increase the amount, we need to secure an external financing either through equity or debt.

Over the past few months, we've been working on securing a financing for an early repayment of the last deferred payment, which is not easy in the actual market, even more since it is aimed at reimbursing a debt.

Nevertheless, we have found some financial partners and are now in a position to have access to an amount of \$3M to be used as a complete and final payment to fully reimburse the last deferred payment without conditions and payable on closing.

I would appreciate your thoughts on this in order to come to an acceptable resolution to both parties. Otherwise, this will likely mean you getting back the asset and trying to monetize it, which will not be easy and will take more time.

Subject: Early Repayment Offer - Quinto Mining Corp.

Dear Nigel,

Following our phone conversation, you will find hereunder an offer, from Mason Graphite, with respect to an early repayment of the last deferred payment in respect of the 2012 Purchase Agreement covering the sale of 215 mining claims by Quinto Mining Corp.

Previous payments made by Mason Graphite to Quinto Mining Corp., amounting to \$10M USD, were released from restricted cash that were set aside as conditions from previous financings raised by Mason Graphite in 2012 and 2014.

The last deferred payment due to Quinto is not funded or covered by any restricted cash and would eventually need to come from a future financing which, in today's financial markets, is highly uncertain in terms of timing and amounts required for our next phases of development.

This last deferred payment is secured by the 215 mining claims sold by Quinto in 2012. If Mason Graphite does not proceed with the last deferred payment, then Quinto will have to recover part of the amount through the realization of the mining claims which, in today's market, will prove to be difficult, costly and lengthy in time.

The determination of the amount of our early repayment offer is based on the Allocation of Consideration used in the transaction with Champion Iron for the 264 claims sold by Quinto (99%) for a total consideration of \$450,000.

Consequently, Mason Graphite is offering \$366,500 as complete and final payment to fully reimburse the last deferred payment without conditions and payable on closing. We will work diligently to ensure a speedy process.

I understand you will discuss this early repayment offer with Quinto and will revert.

Yours truly,

Benoît Gascon, CPA, CA
