#### **OVERVIEW**

- 3. From the time of its establishment in 1994, Sino has claimed to be a legitimate business operating in the commercial forestry industry in the PRC and elsewhere. Throughout that period, Sino has also claimed to have experienced breathtaking growth.
- 4. From 1994 to 2010, Sino's reported annual revenues increased from US\$20.5 million to US\$1.9 billion, or 9,291%, and its year-over-year reported revenues decreased only *once*, in 2000. During that same period, Sino's reported net income increased from US\$3.0 million to US\$395.4 million, or 13,037%, and its year-over-year reported net annual income decreased only twice, in 2000 and 2001. Finally, from 1994 to 2010, Sino's reported total assets as at year-end increased from US\$30.6 million to US\$5.7 billion, or 18,616%. During that period, Sino's year-over-year reported assets *never* decreased.
- 5. Compared to forestry companies identified by Sino as its peers, and indeed by any rational measure, Sino's growth and reported results have been simply unnatural.

- 6. For *none* of the sixty quarters compromising the years 1996 to 2010 did Sino report a net loss; rather, for 100% of all such quarters, Sino reported significant net income. Sino's reported financial results were far superior to those of its peers during comparable periods.
- 7. Beguiled by Sino's reported results, and by Sino's constant refrain that China constituted an extraordinary growth opportunity, investors drove Sino's stock price dramatically higher, as seen in the following chart:

8. The Defendants profited handsomely from the market's resulting appetite for Sino's securities. Certain of the Individual Defendants sold Sino shares at lofty prices, and thereby reaped millions of dollars of gains. Sino's senior management also used Sino's illusory success to justify their lavish salaries, bonuses and other perks. For certain of the Individual Defendants, these outsized gains were not enough. Namely, Sino stock options granted to Chan, Horsley and

other insiders were backdated or otherwise mispriced, prior to and during the Class Period, in violation of the TSX Rules, GAAP and the Securities Legislation.

- 9. Sino itself raised in excess of \$2.7 billion<sup>1</sup> in the capital markets during this period. Meanwhile, the Underwriters were paid lucrative underwriting commissions, and BDO, E&Y and Pöyry garnered millions of dollars in fees to bless Sino's reported results and assets. To their great detriment, the Class Members relied upon these supposed gatekeepers.
- 10. As a reporting issuer in Ontario and elsewhere, Sino was required at all material times to comply with GAAP. Indeed, Sino, BDO and E&Y, Sino's auditors during the Class Period and previously, repeatedly misrepresented that Sino's financial statements complied with GAAP. This was false.
- 11. On June 2, 2011, Muddy Waters, a short seller and research firm with extensive PRC experience, issued its first research report in relation to Sino, and unveiled the scale of the deception that had been worked upon the Class Members. Muddy Waters' initial report effectively revealed, among other things, that Sino had materially misstated its financial results, had falsely claimed to have acquired trees that it did not own, had reported sales that had not been made, or that had been made in a manner that did not permit Sino to book those sales as revenue under GAAP, and had concealed numerous related party transactions. These revelations had a catastrophic effect on Sino's stock price.
- 12. On June 1, 2011, prior to the publication of Muddy Waters' report, Sino's common shares closed at \$18.21. After the Muddy Waters report became public, Sino shares fell to \$14.46 on the TSX (a decline of 20.6%), at which point trading was halted. When trading resumed the next day, Sino's shares fell to a close of \$5.23 (a decline of 71.3% from June 1).

<sup>1</sup> Dollar figures are in Canadian dollars (unless otherwise indicated) and are rounded for convenience.

13. This action is now brought to recover the Class Members' losses from those who caused them: the Defendants.

## SINO'S ORIGINS

- 60. At the time of its establishment, Sino purported to be in the business of acquiring forestry land rights and processing and selling wood chips in the PRC, both directly and through various joint ventures.
- 61. Sino's reported revenues, income and assets thereafter grew rapidly as it transacted earlier and earlier in the overall business cycle, and as Sino became increasingly complex. By the early 2000s, Sino business structure had changed to include wholly-owned subsidiaries and so-called authorized intermediaries ("AIs").

- 62. In its Initial Proxy Circular, Sino purported to operate through six joint ventures formed in the PRC. By 2011, Sino had over 150 subsidiaries, 58 of which were formed in the British Virgin Islands ("BVI"), and at least 40 of which were formed in the PRC.
- 63. Sino's complicated and constantly changing structure, the appearance of arm's-length intermediaries and its carefully crafted purchase and sale agreements combined with the effect that consistently high profit margins could be reported, auditor sign-offs could be achieved, certain taxes could be minimized or not paid, and asset valuations could be obtained from experts claimed to be independent.
- 64. Thus, the now legitimized and rapidly growing business could be packaged to raise roughly \$1 billion in equity and \$1.8 billion in debt financing, while insiders were enriched through the exercise of stock options (including mispriced stock options), salaries and benefits, consulting fees and other means.
- 65. This scheme occurred in the backdrop of related party, taxation and revenue recognition disclosures that were false and incomplete, and violated GAAP.
- 66. Sino's entrance into Canada's capital markets was effected by means of a "reverse takeover." In a reverse takeover, a public shell company acquires a private company that is seeking to become public. The private company (Sino, in this case) becomes public without the scrutiny of an IPO.
- 67. The defendants Chan (identified as Tak Yuen Chan), Poon and Mak (along with John Thompson and James Francis O'Donnell) were the directors of Sino promptly following the reverse takeover. Chan was Chairman of the Board and CEO and Poon was President of the company. E&Y was appointed Sino's initial auditor.

The Hong Kong office of E&Y audited the 1993 Audited Financial Statements of Sino-Wood Partners, Limited, which were included in the February 11, 1994 Proxy Circular. Chan signed those financial statements. E&Y (Hong Kong) also "reviewed, as to compilation only" certain pro-forma statements of various Sino equity joint ventures, also included in that proxy circular. E&Y (Toronto) "reviewed, as to compilation only" the 1993 pro-forma consolidated balance sheet of Sino, also included in that circular.

# Sino Overstates the Value of, and the Revenues Generated by, the Leizhou Joint Venture

69. Initially, Sino's business was conducted primarily through an equity joint venture with the Leizhou Forestry Bureau, which was situated in Guangdong Province in the south of the PRC. The name of the venture was Zhanjiang Leizhou Eucalyptus Resources Development Co. Ltd. ("Leizhou"). The stated purpose of Leizhou, established in 1994, was:

Managing forests, wood processing, the production of wood products and wood chemical products, and establishing a production facility with an annual production capacity of 50,000 m<sup>3</sup> of Micro Density Fiber Board (MDF), managing a base of 120,000 mu (8,000 ha) of which the forest annual utilization would be 8,000 m<sup>3</sup>.

- 70. There are two types of joint ventures in the PRC relevant to Sino: equity joint ventures ('EJV") and cooperating joint ventures ("CJV"). In an EJV, profits and assets are distributed in proportion to the parties' equity holdings upon winding up. In a CJV, the parties may contract to divide profits and assets disproportionately to their equity interests.
- 71. According to a Sino prospectus issued in January 1997, Leizhou, an EJV, was responsible for 20,000 hectares of the 30,000 hectares that Sino claimed to have "phased-in." Leizhou was thus the key driver of Sino's purported early growth.
- 72. Sino claimed to hold 53% of the equity in Leizhou, which was to total US\$10 million, and Sino further claimed that the Leizhou Forestry Bureau was to contribute 20,000 ha of

forestry land. In reality, however, the terms of the EJV required the Leizhou Forestry Bureau to contribute a mere 3,533 ha.

- 73. What was also unknown to investors was that Leizhou did not generate the sales claimed by Sino. More particularly, in 1994, 1995 and 1996, respectively, Sino claimed to have generated US\$11.3 million, US\$23.9 million and US\$23.1 million in sales from Leizhou. In reality, however, these sales did not occur, or were materially overstated.
- 74. Indeed, in an undisclosed letter from Leizhou Forestry Bureau to Zhanjiang City Foreign and Economic Relations and Trade Commission, dated February 27, 1998, the Bureau complained:

# The Joint Venture is not capable of operation

According to the contract and charter, the main purposes of setting up the Joint Venture are, on the one hand, to invest and construct a project producing 50,000 cubic meter Medium Density Fiberboard (MDF) a year; on the other hand, to create a forest base of 120,000 mu, with which to produce 80,000 cubic meter of timber as raw material for the production of medium density fiberboard. The contract and charter also prescribed that the funding required for the MDF board project should be paid by the foreign party in cash; our side should pay in-kind the proportion of the fund prescribed by the contract. After paying 1 million USD, the foreign party [Sino] not only failed to fully fund the company, but also approved in their own name the gradual withdrew of funds in the amount of RMB 4,141,045.02 RMB [approximately \$500,000], from the paid in capital provided by their company for the Joint Venture, among which \$270,000 USD was paid out to the Huadu Baixing Wood Products Factory, which has had no business relationship with the joint venture at all. This amount of money equals 47.6% of the money [Sino] paid in capital. Although our side has almost paid off the subscribed capital (only short 0.9% of the total committed), because of the limited contribution from the foreign party, and withdrew a huge amount of money from among those funds originally contributed by the foreign party, it is impossible to put into practice the project that the joint venture aimed to construct or set up and the intended production and business operation activities. This is all because the funds have been insufficient and the foreign party did not pay in the majority of the subscribed capital. The joint venture therefore is merely a shell, existing in name only.

Additionally, after the establishment of the Joint Venture, the internal operations have been extremely abnormal, for example, annual board meetings have not

been held as scheduled; annual reports on the status and results of annual finance auditing are missing; the huge amount of funds withdrawn by the foreign party were not discussed in the board meeting, etc. It is hard to list all the improper operations here.

75. In its 1996 Annual Financial Statements, Sino stated:

The \$14,992,000 due from the LFB represents cash collected from the sale of wood chips on behalf of the Leizhou EJV. As originally agreed to by Sino-Wood, the cash was being retained by the LFB to fund the ongoing plantation costs of the Leizhou EJV incurred by the LFB. Sino-Wood and LFB have agreed that the amount due to the Leizhou EJV, after reduction for plantation costs incurred, will be settled in 1997 concurrent with the settlement of capital contributions due to the Leizhou EJV by Sino-Wood.

76. These statements were false, inasmuch as Leizhou never generated such sales. Leizhou was wound-up in 1998.

#### Sino's Fictitious Investment in SJXT

- 77. In Sino's audited financial statements for the year ended December 31, 1997, filed on SEDAR on May 20, 1998 (the "1997 Financial Statements"), Sino stated that, in order to establish strategic partnerships with key local wood product suppliers and to build a strong distribution for the wood-based product and contract supply businesses, it had acquired a 20% equity interest in "Shanghai Jin Xiang Timber Ltd." ("SJXT"). Sino then described SJXT as an EJV that had been formed in 1997 by the Ministry of Forestry in China, and declared that its function was to organize and manage the first and only official market for timber and log trading in Eastern China. It further stated that the investment in SJXT was expected to provide the Company with good accessibility to a large base of potential customers and companies in the timber and log businesses in Eastern China.
- 78. According to the 1997 Financial Statements, the total investment of SJXT was estimated to be US\$9.7 million, of which Sino would be required to contribute approximately US\$1.9

million for a 20% equity interest. The 1997 Financial Statements stated that, as at December 31, 1997, Sino had made capital contributions to SJXT in the amount of US\$1.0 million. In Sino's balance sheet as at December 31, 1997, the SXJT investment was shown as an asset of \$1.0 million.

- 79. In October 1998, Sino announced an Agency Agreement with SJXT. At that time, Sino stated that it would provide 130,000 m<sup>3</sup> of various wood products to SJXT over an 18 month period, and that, based on then-current market prices, it expected this contract to generate "significant revenue" for Sino-Forest amounting to approximately \$40 million. The revenues that were purportedly anticipated from the SJXT contract were highly material to Sino. Indeed, Sino's total reported revenues in 1998 were \$92.7 million.
- 80. In Sino's audited financial statements for the year ended December 31, 1998, which statements were filed on SEDAR on May 18, 1999 (the "1998 Financial Statements"), Sino again stated that, in 1997, it had acquired a 20% equity interest in SJXT, that the total investment in SJXT was estimated to be US\$9.7 million, of which Sino would be required to contribute approximately \$1.9 million, representing 20% of the registered capital, and that, as at December 31, 1997 and 1998, Sino had made contributions in the amount of US\$1.0 million to SJXT. In Sino's balance sheet as at December 31, 1998, the SXJT investment was again shown as an asset of US\$1.0 million.
- 81. Sino also stated in the 1998 Financial Statements that, during 1998, the sale of logs and lumber to SJXT amounted to approximately US\$537,000. These sales were identified in the notes to the 1998 Financial Statements as related party transactions.
- 82. In Sino's Annual Report for 1998, Chan stated that lumber and wood products trading constituted a "promising new opportunity." Chan explained that:

SJXT represents a very significant development for our lumber and wood products trading business. The market is prospering and continues to look very promising. Phase I, consisting of 100 shops, is completed. Phases II and III are expected to be completed by the year 2000. This expansion would triple the size of the Shanghai Timber Market.

The Shanghai Timber Market is important to Sino-Forest as a generator of significant new revenue. In addition to supplying various forest products to the market from our own operations, our direct participation in SJXT increases our activities in sourcing a wide range of other wood products both from inside China and internationally.

The Shanghai Timber Market is also very beneficial to the development of the forest products industry in China because it is the first forest products national sub-market in the eastern region of the country.

 $[\dots]$ 

The market also greatly facilitates Sino-Forest's networking activities, enabling us to build new industry relationships and add to our market intelligence, all of which increasingly leverage our ability to act as principal in our dealings.

[Emphasis added.]

- 83. Chan also stated in the 1998 Annual Report that the "Agency Agreement with SJXT [is] expected to generate approximately \$40 million over 18 months."
- 84. In Sino's Annual Report for 1999, Sino stated:

There are also promising growth opportunities as Sino-Forest's investment in Shanghai Jin Xiang Timber Ltd. (SJXT or the Shanghai Timber Market), develops. The Company also continues to explore opportunities to establish and reinforce ties with other international forestry companies and to bring our ecommerce technology into operation.

Sino-Forest's investment in the Shanghai Timber Market — the first national forest products submarket in eastern China — has provided a strong foundation for the Company's lumber and wood products trading business.

[Emphasis added.]

85. In Sino's MD&A for the year ended December 31, 1999, Sino also stated that:

Sales from lumber and wood products trading increased 264% to \$34.2 million compared to \$9.4 million in 1998. The increase in lumber and wood products trading is attributable largely to the increase in new business generated from

our investment in Shanghai Jin Xiang Timber Ltd. (SJXT) and a larger sales force in 1999. Lumber and wood products trading on an agency basis has increased 35% from \$2.3 million in 1998 to \$3.1 million in 1999. The increase in commission income on lumber and wood products trading is attributable to approximately \$1.8 million of fees earned from a new customer.

### [Emphasis added.]

86. In Sino's audited annual financial statements for the year ended December 31, 1999, which statements were filed on SEDAR on May 18, 2000 (the "1999 Financial Statements"), Sino stated:

During the year, Shanghai Jin Xiang Timber Ltd. ["SJXT"] applied to increase the original total capital contributions of \$868,000 [Chinese renminbi 7.2 million] to \$1,509,000 [Chinese renminbi 12.5 million]. Sino-Wood is required to make an additional contribution of \$278,000 as a result of the increase in total capital contributions. The additional capital contribution of \$278,000 was made in 1999 increasing its equity interest in SJXT from 27.8% to 34.4%. The principal activity of SJXT is to organize trading of timber and logs in the PRC market.

### [Emphasis added.]

- 87. The statements made in the 1999 Financial Statements contradicted Sino's prior representations in relation to SJXT. Among other things, Sino previously claimed to have made a capital contribution of \$1,037,000 for a 20% equity interest in SJXT.
- In addition, note 2(b) to the 1999 Financial Statements stated that, "[a]s at December 31, 1999, \$796,000...advances to SJXT remained outstanding. The advances to SJXT were unsecured, non-interest bearing and without a fixed repayment date." Thus, assuming that Sino's contributions to SJXT were actually made, then Sino's prior statements in relation to SJXT were materially misleading, and violated GAAP, inasmuch as those statements failed to disclose that Sino had made to SJXT, a related party, a non-interest bearing loan of \$796,000.

- 89. In Sino's audited annual financial statements for the year ended December 31, 2000, which statements were filed on SEDAR on May 18, 2000 (the "2000 Financial Statements"), Sino stated:
  - In 1999, Shanghai Jin Xiang Timber Ltd. ("SJXT") applied to increase the original total capital contributions of \$868,000 [Chinese renminbi 7.2 million] to \$1,509,000 [Chinese renminbi 12.5 million]. Sino-Wood is required to make an additional contribution of \$278,000 as a result of the increase in total capital contributions. The additional capital contribution of \$278,000 was made in 1999 increasing its equity interest in SJXT from 27.8% to 34.4%. The principal activity of SJXT is to organize the trading of timber and logs in the PRC market. During the year, advances to SJXT of \$796,000 were repaid.
- 90. In Sino's balance sheet as at December 31, 2000, the SJXT investment was shown as an asset of \$519,000, being the sum of Sino's purported SJXT investment of \$1,315,000 as at December 31, 1999, and the \$796,000 of "advances" purportedly repaid to Sino by SJXT during the year ended December 31, 2000.
- 91. In Sino's Annual Reports (including the audited annual financial statements contained therein) for the years 2001 and beyond, there is no discussion whatsoever of SJXT. Indeed, Sino's "promising" and "very significant" investment in SJXT simply evaporated, without explanation, from Sino's disclosure documents. In fact, and unbeknownst to the public, Sino never invested in a company called "Shanghai Jin Xiang Timber Ltd." Chan and Poon knew, or were reckless in not knowing of, that fact.

### Sino's Failure to Disclose the Alkaner Winding-up Petition

92. On December 16, 2003, a BVI corporation, Alkaner Assets Ltd. ("Alkaner"), filed a petition in the High Court of Hong Kong for an order compelling the winding up Sino. Had the petition been granted, then a liquidator would have been appointed, and Sino would have been at risk of a termination of its business activities.

93. The petition was settled on terms unknown to the Plaintiffs. However, given the severity of the consequences of the granting of Alkaner's petition, the fact that Alkaner had filed such a petition was material, and ought to have been disclosed to Sino's shareholders. Yet Sino never disclosed the Alkaner petition.

### Sino's Increasing Reliance on Authorized Intermediaries

- 94. In Sino's AIF for the year ended December 31, 2003 ("2003 AIF"), Sino first disclosed that, through Sino-Forest Resources, Inc. and Suri-Wood Inc., each an indirect wholly-owned subsidiary formed in the BVI, Sino had been engaging in standing timber and wood chips sales and trading activities with AIs.
- 95. Although Sino claimed prior to and during the Class Period that its AIs, whose identities Sino largely concealed, possessed the requisite PRC business licenses to engage in trading activities, in fact the AIs were unnecessary from an operational perspective and exposed Sino to extraordinary risks, particularly in relation to Sino's tax liabilities in the PRC. As alleged more particularly below, the Defendants misrepresented the true purpose of the AIs, and greatly understated the risks arising from Sino's reliance upon them.
- 96. According to the 2003 AIF, for the three years ended December 31, 2003, sales transactions with these AIs constituted approximately 56.5%, 57.9% and 51.2%, respectively, of Sino's revenue. Despite the fact that sales through AIs accounted for a majority of Sino's revenues in 2002 and 2001, Sino did not disclose its reliance on AIs in those years until the issuance of the 2003 AIF in May 2004.

#### 97. The 2003 AIF further stated:

Our relationships with our authorized intermediaries are governed by master agreements ("Master Agreements"), as supplemented by certain operational procedures relating to the wood chips sales transactions (the "Operational Procedures"). Under the Master

Agreements, as supplemented by the Operational Procedures, we appoint the authorized intermediaries to manage our wood chips trading transactions on our behalf. The authorized intermediaries agree to enter into contracts to purchase timber from suppliers, process the timber into wood chips and deliver wood chips to customers pursuant to sales contracts entered into between the authorized intermediaries and customers. We agree to reimburse the costs of the authorized intermediaries, including the cost of the purchase of raw timber, and to pay both a processing fee and a management fee, all of which are deducted from the sales proceeds of the wood chips [...]

The Operational Procedures delineate our and the authorized intermediaries' rights and obligations with respect to the purchase of raw timber, the processing of raw timber into wood chips and the sale of wood chips. Under the Operational Procedures, the authorized intermediaries assume the risks and obligations relating to the raw timber from the time the raw timber is purchased until it is delivered to the respective authorized intermediary's premises. We assume all risks and obligations relating to the raw timber once it arrives at the premises of the authorized intermediary until it is processed into wood chips, except for any loss arising as a result of the authorized intermediary's default. Once the raw timber is processed into wood chips, the authorized intermediary is responsible for selling wood chips to customers and it assumes all rights and obligations relating to the wood chips under its sales contracts with customers. The Operational Procedures provide that the authorized intermediaries are responsible for selling wood chips to customers within time limits agreed between the relevant authorized intermediary and us, and that they assume all risks and obligations for failing to meet these delivery requirements.

 $[\ldots]$ 

Because of the provisions in the Operational Procedures that specify when we and the authorized intermediary assume the risks and obligations relating to the raw timber or wood chips, as the case may be, we treat these transactions for accounting purposes as providing that we take title to the raw timber when it is delivered to the authorized intermediary. Title then passes to the authorized intermediary once the timber is processed into wood chips. Accordingly, we treat the authorized intermediaries for accounting purposes as being both our suppliers and customers in these transactions.

[Emphasis added.]

98. Sino made additional disclosure regarding its reliance on AIs in its AIF for the year ended December 31, 2004, wherein it stated:

Two of our British Virgin Islands subsidiaries, Sino-Forest Resources, Inc. and Suri-Wood Inc., have been responsible for the authorized sales in the PRC of standing timber from our purchased tree plantations and the logs, wood chips and wood-based products processed from timber sourced from third party suppliers. They have conducted these sales activities through authorized intermediaries in the PRC. The amount we receive from these activities is on a net basis after withholding of applicable taxes by the

authorized intermediaries. Because the authorized intermediaries are responsible for filing the tax returns with, and withholding or paying relevant taxes to, the PRC government in respect of these activities, the two British Virgin Islands subsidiaries generally have not had the necessary documentation to evidence the payment of PRC taxes to the relevant branch of the State Administration for Foreign Exchange.

99. In Sino's AIF for the year ended December 31, 2005, Sino made limited and materially deficient disclosure in relation to the tax risks arising from its use of AIs:

In accordance with Income Tax Laws, foreign companies deriving income from sources in the PRC are subject to corporate income tax as a foreign investment enterprise. Under the terms of the master agreements, relevant sales and purchase contracts and commission agreements made with the AI, the AI are responsible for paying all PRC taxes on behalf of the BVI subsidiaries that arise from the Authorized Sales Activities, including but not limited to, corporate income tax, value-added tax and business tax. Accordingly, the BVI Subsidiaries are not required to and therefore did not directly pay any PRC taxes with respect to the profits earned in the PRC. The relevant income remitted to the Company should have already been taxed and not subject to additional PRC taxes.

If PRC tax authorities were to determine that the AI did not pay applicable PRC taxes as required on the Authorized Sales Activities on behalf of the BVI Subsidiaries, they may attempt to recover the applicable PRC taxes or any shortfall from the BVI Subsidiaries. Since the BVI Subsidiaries are unable to ascertain whether the AI have properly handled such tax settlements and/or able to recover relevant PRC taxes required to be paid by the BVI Subsidiaries from the AI, a provision for the corporate income tax at an amount representing management's best estimate of the amount the PRC tax authorities might seek to recover, is recognized in the financial statements each year. The yearly provision is reversed to the income statement after a period of three years based on management' best estimate of the liability. This means that the Company always maintains a three-year provision for tax on the profits earned from the Authorized Sales Activities of the three most recent years.

As at December 31, 2005 the balance of the provision for these tax related liabilities amounting to \$25,379,000 (2004 – \$17,936,000) was provided on the profits of the Authorized Sales Activities earned by the BVI Subsidiaries over the three previous years.

[...] Should the PRC tax authorities recover income tax, business tax and value-added tax directly from the BVI Subsidiaries, they might do so together with related tax surcharges and tax penalties on applicable income or profits of the Authorized Sales Activities from the BVI Subsidiaries for up to three years in practice. Under prevailing PRC tax rules, the tax surcharge is calculated at 0.05% per day on the tax amount overdue while the tax penalties can range from 50% to 500% of taxes underpaid. Under the Hong Kong tax regulations, assessments are open for up to six years in practice and tax penalties can be up to treble amount of the tax underpaid.

### [Emphasis added.]

100. However, in order to mitigate any concerns that investors may have had in relation to Sino's extensive use of AIs, Sino stated:

We intend to reduce our reliance on authorized intermediaries going forward. Currently, Jia Yao WFOE engages in sales of wood chips and logs sourced from third parties in the PRC through authorized intermediaries in the PRC. We intended to transfer Jia Yao WFOE from Sino-Panel (Gaoyao) Limited to Sino-Forest (China) Investment Limited so that Jia Yao WFOE would enter into contracts with suppliers of raw timber through Sino-Forest (China) Investment Limited, instead of authorized intermediaries.

With the successful establishment of Sino-Forest (China) Investment Limited and the subsequent establishment of Sino-Forest (Guangzhou) Trading Co. Ltd. and Sino-Forest (Suzhou) Trading Co. Ltd., we believe that we would have better opportunities to engage in trading activities through Sino-Forest (Guangzhou) Trading Co. Ltd. and Sino-Forest (Suzhou) Trading Co. We anticipate that we will gradually phase out authorized intermediaries' involvement in these activities. However, the pace of such a phase-out is not clear and we expect to continue to rely on the authorized intermediary in the sale of woods chips in the PRC for the foreseeable future.

## [Emphasis added.]

101. Although it appeared that Sino transformed its business model over its history, from a producer and seller of wood chips to a seller of standing timber, in substance its overall business process did not change substantially. The most significant changes were the continual restructuring of Sino's organizational structure and its contractual arrangements with business partners and related entities. These changes were motivated, in whole or in part, by financial reporting objectives, specifically revenue recognition. Management consistently modified Sino's organizational structure and contractual arrangements to achieve revenue recognition at both greater values and at earlier points in time than is permissible under GAAP.

#### SINO'S CLASS PERIOD MISREPRESENTATIONS

102. The Defendants made misrepresentations throughout the Class Period. The particular Impugned Documents in which particular Defendants made representations, approved of them or caused them to be made during the Class Period are set out in **Schedule A**.

# Sino's 2006 Results and AIF and its May 2007 Management Information Circular

- 103. Prior to the opening of markets on March 19, 2007 (the first day of the Class Period), Sino issued and filed on SEDAR its 2006 Annual Consolidated Financial Statements and 2006 Annual MD&A. Each such document contained the Representation, which was false.
- 104. More particularly, Sino reported in each such document, on a GAAP basis, that its revenues and net income for the year ended December 31, 2006 were, respectively, US\$645.0 million and US\$111.6 million, and further reported, on a GAAP basis, that its assets as at December 31, 2006 were US\$1.2 billion. According to these disclosure documents, Sino's revenues, net income and assets had increased from the prior year's results by, respectively, 31%, 36% and 35%. However, Sino's results for 2006, and its assets as at year-end 2006, were materially overstated.
- 105. Over the ten trading days following the issuance of Sino's inflated 2006 results, Sino's share price rose substantially on unusually heavy trading volume. At the close of trading on March 16, 2007 (the trading day prior to March 19, 2007), Sino's shares traded at \$10.10 per share. At the close of trading on March 29, 2007, Sino's shares traded at \$13.42 per share, which constituted an increase of approximately 33% from the March 19 closing price.
- 106. On March 30, 2007, Sino issued and filed on SEDAR its 2006 AIF. In that AIF, Sino stated:

...PRC laws and regulations require foreign companies to obtain licenses to engage in any business activities in the PRC. As a result of these requirements, we currently engage in our trading activities through PRC authorized intermediaries that have the requisite business licenses. There is no assurance that the PRC government will not take action to restrict our ability to engage in trading activities through our authorized intermediaries. In order to reduce our reliance on the authorized intermediaries, we intend to use a WFOE in the PRC to enter into contracts directly with suppliers of raw timber, and then process the raw timber, or engage others to process raw timber on its behalf, and sell logs, wood chips and wood-based products to customers, although it would not be able to engage in pure trading activities.

### [Emphasis added.]

- 107. In its 2007 AIF, which Sino filed on March 28, 2008, Sino again declared its intention to reduce its reliance upon AIs.
- 108. These statements were false and/or materially misleading when made, inasmuch as Sino had no intention to reduce materially its reliance on AIs, because its AIs were critical to Sino's ability to inflate its revenue and net income. Rather, these statements had the effect of mitigating any investor concern arising from Sino's extensive reliance upon AIs.
- 109. Throughout the Class Period, Sino continued to depend heavily upon AIs for its purported sales of standing timber. Based in part upon management's provision for the amount the PRC tax authorities might seek to recover in relation to Sino's use of AIs, which provision increased over 400% from year-end 2006 to year-end 2010, it appears that Sino's reliance on AIs in fact *increased* during the Class Period.
- 110. On May 4, 2007, Sino issued and filed on SEDAR a Management Information Circular, and stated therein that "[m]aintaining a high standard of corporate governance is a top priority for the Board of Directors and the Corporation's management as both believe that effective corporate governance will help create and maintain shareholder value in the long term."

- 111. These statements were materially misleading when made, in that Chan and Poon, both of whom were then members of Sino's Board, had concealed from investors the Alkaner petition, their true qualifications to manage Sino, Sino's dealings with Leizhou, and that Sino's investment in SJXT was fictitious. The fact that Chan and Poon had knowingly concealed these facts from investors prior to the Class Period was material to persons who acquired Sino securities during the Class Period, because Chan and Poon were then in control of Sino, and their past misconduct demonstrated that they were unfit to manage Sino.
- 112. In any event, the failure to disclose these facts at any time during the Class Period rendered misleading Sino's declarations that a "high standard of corporate governance" was a "top priority."

## Sino's Class Period Misrepresentations in Relation to its AIs

- 113. Throughout the Class Period, Sino materially understated the tax-related risks arising from its use of AIs.
- 114. Tax evasion penalties in the PRC are severe. Depending on whether the PRC authorities seek recovery of unpaid taxes by means of a civil or criminal proceeding, its claims for unpaid tax are subject to either a five- or ten-year limitation period. The unintentional failure to pay taxes is subject to a 18.75% per annum interest penalty, while an intentional failure to pay taxes is punishable with *unlimited* fines, depending on the severity of the infraction.<sup>2</sup>
- Therefore, because Sino professed to be unable to determine whether its AIs have paid required taxes, the tax-related risks arising from Sino's use of AIs were potentially devastating. Sino failed, however, to disclose these aspects of the PRC tax regime in its Class Period disclosure documents, as set out in paragraph 161.

<sup>2</sup> Prior to Pebruary 28, 2009, the latter penalty was capped at five times the unpaid taxes.

- Based upon Sino's reported results, Sino's tax accruals in all of its Impugned Documents 116. that were interim and annual financial statements were materially deficient. For example, depending on whether the PRC tax authorities would assess interest at the rate of 18.75% per annum, or would assess no interest, on the unpaid income taxes of Sino's BVI subsidiaries, and depending also on whether one assumes that Sino's AIs have paid no income taxes or have paid 50% of the income taxes due to the PRC, then Sino's tax accruals in its 2007, 2008, 2009 and 2010 Audited Annual Financial Statements were understated by, respectively, US\$10 million to US\$150 million, US\$50 million to US\$260 million, US\$81 million to US\$371 million, and US\$83 million to US\$493 million. Importantly, were one to consider the impact of unpaid taxes other than unpaid income taxes (for example, unpaid value-added taxes), then the amounts by which Sino's tax accruals were understated in these financial statements would be substantially The aforementioned estimates of the amounts by which Sino's tax accruals were understated also assume that the PRC tax authorities only impose interest charges on Sino's BVI Subsidiaries and impose no other penalties for unpaid taxes, and assume further that the PRC authorities seek back taxes only for the preceding five years. As indicated above, each of these assumptions is likely to be unduly optimistic. In any case, Sino's inadequate tax accruals violated GAAP, and constituted misrepresentations.
- 117. Sino also violated GAAP in its 2009 Audited Annual Financial Statements by failing to apply to its 2009 financial results the PRC tax guidance that was issued in February 2010. Although that guidance was issued after year-end 2009, GAAP required that Sino apply that guidance to its 2009 financial results, because that guidance was issued in the subsequent events period.

:

- 118. Based upon Sino's reported profit margins on its dealings with AIs, which margins are extraordinary both in relation to the profit margins of Sino's peers, and in relation to the limited risks that Sino purports to assume in its transactions with its AIs, Sino's AIs are not satisfying their tax obligations, a fact that was either known to the Defendants or ought to have been known. If Sino's extraordinary profit margins are real, then Sino and its AIs must be dividing the gains from non-payment of taxes to the PRC.
- During the Class Period, Sino also failed to disclose in any of the Impugned Documents that were AIFs, MD&As, financial statements, Prospectuses or Offering Memoranda, the risks relating to the repatriation of its earnings from the PRC. In 2010, Sino added two new sections to its AIF regarding the risk that it would not be able to repatriate earnings from its BVI subsidiaries (which deal with the AIs). The amount of retained earnings that may not be able to be repatriated is stated therein to be US\$1.4 billion. Notwithstanding this disclosure, Sino did not disclose in these Impugned Documents that it would be unable to repatriate any earnings absent proof of payment of PRC taxes, which it has admitted that it lacks.
- 120. In addition, there are material discrepancies in Sino's descriptions of its accounting treatment of its AIs. Beginning in the 2003 AIF, Sino described its AIs as follows:

Because of the provisions in the Operational Procedures that specify when we and the authorized intermediary assume the risks and obligations relating to the raw timber or wood chips, as the case may be, we treat these transactions for accounting purposes as providing that we take title to the raw timber when it is delivered to the authorized intermediary. Title then passes to the authorized intermediary once the timber is processed into wood chips. Accordingly, we treat the authorized intermediaries for accounting purposes as being both our suppliers and customers in these transactions.

[Emphasis added.]

121. Sino's disclosures were consistent in that regard up to and including Sino's first AIF issued in the Class Period (the 2006 AIF), which states:

Because of the provisions in the Operational Procedures that specify when we and the AI assume the risks and obligations relating to the raw timber or wood chips, as the case may be, we treat these transactions for accounting purposes as providing that we take title to the raw timber when it is delivered to the AI. Title then passes to the AI once the timber is processed into wood chips. Accordingly, we treat the AI for accounting purposes as being both our supplier and customer in these transactions.

### [Emphasis added.]

- 122. In subsequent AIFs, Sino ceased without explanation to disclose whether it treated AIs for accounting purposes as being both the supplier and the customer.
- 123. Following the issuance of Muddy Waters' report on the last day of the Class Period, however, Sino declared publicly that Muddy Waters was "wrong" in its assertion that, for accounting purposes, Sino treated its AIs as being both supplier and customer in transactions. This claim by Sino implies either that Sino misrepresented its accounting treatment of AIs in its 2006 AIF (and in its AIFs for prior years), or that Sino changed its accounting treatment of its AIs after the issuance of its 2006 AIF. If the latter is true, then Sino was obliged by GAAP to disclose its change in its accounting treatment of its AIs. It failed to do so.

#### Sino Overstates its Yunnan Forestry Assets

124. In a press release issued by Sino and filed on SEDAR on March 23, 2007, Sino announced that it had entered into an agreement to sell 26 million shares to several institutional investors for gross proceeds of US\$200 million, and that the proceeds would be used for the acquisition of standing timber, including pursuant to a new agreement to purchase standing timber in Yunnan Province. It further stated in that press release that Sino-Panel (Asia) Inc. ("Sino-Panel"), a wholly-owned subsidiary of Sino, had entered on that same day into an agreement with Gengma Dai and Wa Tribes Autonomous Region Forestry Company Ltd., ("Gengma Forestry") established in Lincang City, Yunnan Province in the PRC, and that, under that Agreement, Sino-Panel would acquire approximately 200,000 hectares of non-state owned

commercial standing timber in Lincang City and surrounding cities in Yunnan for US\$700 million to US\$1.4 billion over a 10-year period.

- 125. These same terms of Sino's Agreement with Gengma Forestry were disclosed in Sino's Q1 2007 MD&A. Moreover, throughout the Class Period, Sino discussed its purported Yunnan acquisitions in the Impugned Documents, and Pöyry repeatedly made statements regarding said holdings, as particularized below.
- 126. The misrepresentations about Sino's acquisition and holdings of the Yunnan forestry assets were made in all of the Impugned Documents that were MD&As, financial statements, AIFs, Prospectuses and Offering Memoranda, except for the 2005 Audited Annual Financial Statements, the Q1 2006 interim financial statements, the 2006 Audited Annual Financial Statements, the 2006 Annual MD&A.
- 127. The reported Yunnan acquisitions did not take place. Sino overstated to a material degree the size and value of its forestry holdings in Yunnan Province. It simply does not own all of the trees it claims to own in Yunnan.

## Sino Overstates its Suriname Forestry Assets

- 128. In mid-2010, Sino became a majority shareholder of Greenheart Group Ltd., a Bermuda corporation having its headquarters in Hong Kong and a listing on the Hong Kong Stock Exchange ("Greenheart").
- 129. In August 2010, Greenheart issued an aggregate principal amount of US\$25,000,000 convertible notes for gross proceeds of US\$24,750,000. The sole subscriber of these convertible notes was Greater Sino Holdings Limited, an entity in which Murray has an indirect interest. In addition, Chan and Murray then became members of Greenheart's Board, Chan became the Board's Chairman, and Martin became the CEO of Greenheart and a member of its Board.

- 130. On August 24, 2010 and December 28, 2010, Greenheart granted to Chan, Martin and Murray options to purchase, respectively, approximately 6.8 million, 6.8 million and 1.1 million Greenheart shares. The options are exercisable for a five-year term.
- 131. As at March 31, 2011, General Enterprise Management Services International Limited, a company in which Murray has an indirect interest, held 7,000,000 shares of Greenheart, being 0.9% of the total issued and outstanding shares of Greenheart.
- 132. As a result of the aforesaid transactions and interests, Sino, Chan, Martin and Murray stood to profit handsomely from any inflation in the market price of Greenheart's shares.
- 133. At all material times, Greenheart purported to have forestry assets in New Zealand and Suriname. On March 1, 2011, Greenheart issued a press release in which it announced that:

Greenheart acquires certain rights to additional 128,000 hectare concession in Suriname

\*\*\*\*

# 312,000 hectares now under Greenheart management

Hong Kong, March 1, 2011 – Greenheart Group Limited ("Greenheart" or "the Company") (HKSE: 00094), an investment holding company with forestry assets in Suriname and New Zealand (subject to certain closing conditions) today announced that the Company has acquired 60% of Vista Marine Services N.V. ("Vista"), a private company based in Suriname, South America that controls certain harvesting rights to a 128,000 hectares hardwood concession. Vista will be rebranded as part of the Greenheart Group. This transaction will increase Greenheart's concessions under management in Suriname to approximately 312,000 hectares. The cost of this acquisition is not material to the Company as a whole but the Company is optimistic about the prospects of Vista and the positive impact that it will bring. The concession is located in the Sipalawini district of Suriname, South America, bordering Lake Brokopondo and has an estimated annual allowable cut of approximately 100,000 cubic meters.

Mr. Judson Martin, Chief Executive Officer of Greenheart and Vice-Chairman of Sino-Forest Corporation, the Company's controlling shareholder said, "This acquisition is in line with our growth strategy to expand our footprint in Suriname. In addition to increased harvestable area, this acquisition will bring synergies in sales, marketing,

administration, financial reporting and control, logistics and overall management. I am pleased to welcome Mr. Ty Wilkinson to Greenheart as our minority partner. Mr. Wilkinson shares our respect for the people of Suriname and the land and will be appointed Chief Executive Officer of this joint venture and be responsible for operating in a sustainable and responsible manner. This acquisition further advances Greenheart's strategy of becoming a global agri-forestry company. We will continue to actively seek well-priced and sustainable concessions in Suriname and neighboring regions in the coming months."

### About Ty Wilkinson

Mr. Wilkinson has over twenty years of experience in the agricultural and forestry business. He was awarded the prestigious "Farmer and Rancher of the year" award in the USA, in recognition of his work on water conservation, perfecting the commercial use of drip irrigation and maximizing crop yield through the use of technical soil research and analysis. Mr. Wilkinson also has extensive knowledge in sustainable forestry management, forestry planning, infrastructure development, harvest schedules, lumber drying, lumber processing, extensive local knowledge as well as regional business networks. He has been living in Suriname since 2001.

[Emphasis added.]

134. In its 2010 AIF, filed on SEDAR on March 31, 2011, Sino stated:

We hold a majority interest in Greenheart Group which, together with its subsidiaries, owns certain rights and manages approximately 312,000 hectares of hardwood forest concessions in the Republic of Suriname, South America ("Suriname") and 11,000 hectares of a radiata pine plantation on 13,000 hectares of freehold land in New Zealand as at March 31, 2011. We believe that our ownership in Greenheart Group will strengthen our global sourcing network in supplying wood fibre for China in a sustainable and responsible manner.

[Emphasis added.]

- 135. The statements reproduced in the preceding paragraph were false and/or materially misleading when made.
- 136. Shortly before Greenheart's purported acquisition of Vista Marine Services N.V. ("Vista"), Vista was founded by Ty Wilkinson, an American citizen who formerly resided in Sarasota, Florida. Although Greenheart saw fit to disclose in its March 1, 2011 press release that Mr. Wilkinson, Greenheart's new Suriname CEO, was once named "Farmer and Rancher of the

year," Greenheart failed to disclose that the Circuit Court of Sarasota County, Florida, had issued a warrant for Mr. Wilkinson's arrest in October 2009, and that Mr. Wilkinson abandoned residence in the United States at least in part to avoid arrest, and also to avoid paying various debts Wilkinson owes to a former business associate and others.

- 137. There is no record of Greenheart in the Suriname Trade Register maintained by the Chamber of Commerce in Suriname, nor is there any record of Greenheart with the Suriname Foundation for Forest Management and Production Control.
- 138. In addition, under the Suriname *Forest Management Act*, it is prohibited for one company or a group of companies in which one person or company has a majority interest to control more than 150,000 hectares of land under concession.
- 139. Finally, Vista's forestry concessions are located in a region of Suriname populated by the Saramaka, an indigenous people. Pursuant to the American Convention on Human Rights and a decision of the Inter-American Court of Human Rights, the Saramaka people must have effective control over their land, including the management of their reserves, and must be effectively consulted by the State of Suriname. Sino has not disclosed in any of the Impugned Documents where it has discussed Greenheart and/or Suriname assets that Vista's purported concessions in Suriname, if they exist at all, are impaired due to the unfulfilled rights of the indigenous peoples of Suriname. The Impugned Documents that omitted that disclosure were the 2010 Annual MD&A, the 2010 Audited Annual Financial Statements, and the 2010 AIF.

#### Jiangxi Forestry Assets

140. On June 11, 2009, Sino issued a press release in which it stated:

Sino-Forest Corporation (TSX: TRE), a leading commercial forest plantation operator in China, announced today that its wholly-owned subsidiary, Sino-Panel (China) Investments Limited ("Sino-Panel"), has entered into a Master Agreement for the

Purchase of Pine and Chinese Fir Plantation Forests (the "Jiangxi Master Agreement") with Jiangxi Zhonggan Industrial Development Company Limited ("Jiangxi Zhonggan"), which will act as the authorized agent for the original plantation rights holders.

Under the Jiangxi Master Agreement, Sino-Panel will, through PRC subsidiaries of Sino-Forest, acquire between 15 million and 18 million cubic metres (m³) of wood fibre located in plantations in Jiangxi Province over a three-year period with a price not to exceed RMB300 per m³, to the extent permitted under the relevant PRC laws and regulations. The plantations in which such amount of wood fibre to acquire is between 150,000 and 300,000 hectares to achieve an estimated average wood fibre yield of approximately 100 m² per hectare, and include tree species such as pine, Chinese fir and others. Jiangxi Zhonggan will ensure plantation forests sold to Sino-Panel and its PRC subsidiaries are non-state-owned, non-natural, commercial plantation forest trees.

In addition to securing the maximum tree acquisition price, Sino-Panel has pre-emptive rights to lease the underlying plantation land at a price, permitted under the relevant PRC laws and regulations, not to exceed RMB450 per hectare per annum for 30 years from the time of harvest. The land lease can also be extended to 50 years as permitted under PRC laws and regulations. The specific terms and conditions of purchasing or leasing are to be determined upon the execution of definitive agreements between the PRC subsidiaries of Sino-Panel and Jiangxi Zhonggan upon the authorisation of original plantation rights holders, and subject to the requisite governmental approval and in compliance with the relevant PRC laws and regulations.

Sino-Forest Chairman and CEO Allen Chan said, "We are fortunate to have been able to capture and support investment opportunities in China's developing forestry sector by locking up a large amount of fibre at competitive prices. The Jiangxi Master Agreement is Sino-Forest's fifth, long-term, fibre purchase agreement during the past two years. These five agreements cover a total plantation area of over one million hectares in five of China's most densely forested provinces."

[Emphasis added.]

141. According to Sino's 2010 Annual MD&A, as of December 31, 2010, Sino had acquired 59,700 ha of plantation trees from Jiangxi Zhonggan Industrial Development Company Limited ("Zhonggan") for US\$269.1 million under the terms of the master agreement. (In its interim report for the second quarter of 2011, which was issued after the Class Period, Sino claims that, as at June 30, 2011, this number had increased to 69,100 ha, for a purchase price of US\$309.6 million).

- 142. However, as was known to Sino, Chan, Poon and Horsley, and as ought to have been known to the remaining Individual Defendants, BDO, E&Y and Pöyry, Sino's plantation acquisitions through Zhonggan are materially smaller than Sino has claimed.
- 143, Irrespective of the true extent of Zhonggan's transactions in Jiangxi forestry plantations, Sino failed to disclose, in violation of GAAP, that Zhonggan was a related party of Sino. More particularly, according to AIC records, the legal representative of Zhonggan is Lam Hong Chiu, who is an executive vice president of Sino. Lam Hong Chiu is also a director and a 50% shareholder of China Square Industrial Limited, a BVI corporation which, according to AIC records, owns 80% of the equity of Zhonggan. The Impugned Documents that omitted that disclosure were the Q2 2009 MD&A, the Q2 2009 interim financial statements, the Q3 2009 MD&A, the Q3 2009 interim financial statements, the December 2009 Prospectus, the 2009 Annual MD&A, the 2009 Audited Annual Financial Statements, the 2009 AIF, the Q1 2010 MD&A, the Q1 2010 interim financial statements, the Q2 2010 MD&A, the Q2 2010 interim financial statements, the Q3 2010 interim financial statements, the 2010 Annual MD&A, the 2010 Audited Annual Financial Statements, and the 2010 AIF.

# Misrepresentations Regarding Related Parties other than Zhonggan

144. On January 12, 2010, Sino issued a press release in which it announced the acquisition by one of its wholly-owned subsidiaries of Homix Limited ("Homix"), which it described as a company engaged in research and development and manufacturing of engineered-wood products in China, for an aggregate amount of US\$7.1 million. That press release stated:

HOMIX has an R&D laboratory and two engineered-wood production operations based in Guangzhou and Jiangsu Provinces, covering eastern and southern China wood product markets. The company has developed a number of new technologies with patent rights, specifically suitable for domestic plantation logs including poplar and eucalyptus species. HOMIX specializes in curing, drying and dyeing methods for engineered wood and has the know-how to produce recomposed wood products and laminated veneer lumber.

Recomposed wood technology is considered to be environment-friendly and versatile as it uses fibre from forest plantations, recycled wood and/or wood residue. This reduces the traditional use of large-diameter trees from natural forests. There is growing demand for recomposed wood technology as it reduces cost for raw material while increases the utilization and sustainable use of plantation fibre for the production of furniture and interior/exterior building materials.

### [...]

Mr. Allen Chan, Sino-Forest's Chairman & CEO, said, "As we continue to ramp up our replanting programme with improved eucalyptus species, it is important for Sino-Forest to continue investing in the research and development that maximizes all aspects of the forest product supply chain. Modernization and improved productivity of the wood processing industry in China is also necessary given the country's chronic wood fibre deficit. Increased use of technology improves operation efficiency, and maximizes and broadens the use of domestic plantation wood, which reduces the need for logging domestic natural forests and for importing logs from strained tropical forests. HOMIX has significant technological capabilities in engineered-wood processing."

Mr. Chan added, "By acquiring HOMIX, we intend to use six-year eucalyptus fibre instead of 30-year tree fibre from other species to produce quality lumber using recomposed technology. We believe that this will help preserve natural forests as well as improve the demand for and pricing of our planted eucalyptus trees."

- 145. Sino's 2009 Audited Annual Financial Statements, Q1/2010 Unaudited Interim Financial Statements, 2010 Audited Annual Financial Statements, the MD&As related to each of the aforementioned financial statements, and Sino's AIFs for 2009 and 2010, each discussed the acquisition of Homix, but nowhere disclosed that Homix was in fact a party related to Sino.
- 146. More particularly, Hua Chen, a Senior Vice President, Administration & Finance, of Sino in the PRC, and who joined Sino in 2002, is a 30% shareholder of an operating subsidiary of Homix, Jiangsu Dayang Wood Co., Ltd.
- 147. Pursuant to GAAP, Sino was required to provide, among other things, a description of the relationship between the transacting parties when dealing with related parties. GAAP recognizes that detail on related party transactions is crucial: "Information about related party transactions is

often of more significance to a financial statement user than information about unrelated party transactions, regardless of the size of such transactions."

- 148. Thus, Sino's failure to disclose that Homix was a related party was a violation of GAAP, and a misrepresentation.
- 149. Finally, Homix has no patent designs registered with the PRC State Intellectual Property Office, a fact also not disclosed by Sino at the time of the acquisition of Homix or subsequently. The Impugned Documents that omitted that disclosure were the 2009 Annual MD&A, the 2009 Audited Annual Financial Statements, the 2009 AIF, the Q1 2010 MD&A, the Q1 2010 interim financial statements, the Q2 2010 MD&A, the Q2 2010 interim financial statements, the Q3 2010 MD&A, the Q3 2010 interim financial statements, the 2010 Annual MD&A, the 2010 Audited Annual Financial Statements, and the 2010 AIF.
- 150. In addition, during the Class Period, Sino purportedly purchased approximately 1,600 hectares of timber in Yunnan province from Yunnan Shunxuan Forestry Co. Ltd. Yunnan Shunxuan was part of Sino, acting under a separate label. Accordingly, it was considered a related party for the purposes of the GAAP disclosure requirements, a fact that Sino failed to disclose in any of the Class Period Impugned Documents that were MD&As, financial statements, AIFs and Prospectuses.
- 151. Sino's failure to disclose that Yunnan Shunxuan was a related party was a violation of GAAP, and a misrepresentation.

# Misrepresentations Regarding Sales of Standing Timber

152. Every financial statement and MD&A issued during the Class Period overstates Sino's sales of standing timber to a material degree, and overstates to a material degree Sino's reported revenues and net income for the period in question.

153. Throughout the Class Period, Sino purported to sell "standing timber." As particularized above, such sales did not occur, or did not occur in a manner such that revenue could be recorded pursuant to GAAP.

### Misrepresentations Regarding Purchases of Forestry Assets

. P. S

- 154. As particularized above, Sino overstated its acquisition of forestry assets in Yunnan and Jiangxi Provinces in the PRC and in Suriname. Accordingly, Sino's total assets are overstated to a material degree in all of the Impugned Documents in violation of GAAP, and each such statement of Sino's total assets constitutes a misrepresentation.
- 155. In addition, during the Class Period, Pöyry and entities affiliated with it made statements that are misrepresentations in regard to Sino's Yunnan Province "assets," namely:
  - (a) In a report dated March 14, 2008, filed on SEDAR on March 31, 2008 (the "2008 Valuations"), Pöyry: (a) stated that it had determined the valuation of the Sino forest assets to be US\$3.2 billion as at 31 December 2007; (b) provided tables and figures regarding Yunnan; (c) stated that "Stands in Yunnan range from 20 ha to 1000 ha," that "In 2007 Sino-Forest purchased an area of mixed broadleaf forest in Yunnan Province," that "Broadleaf forests already acquired in Yunnan are all mature," and that "Sino-Forest is embarking on a series of forest acquisitions/expansion efforts in Hunan, Yunnan and Guangxi;" and (d) provided a detailed discussion of Sino's Yunnan "holdings" at Appendixes 3 and 5. Pöyry's 2008 Valuations were incorporated in Sino's 2007 Annual MD&A, amended 2007 Annual MD&A, 2007 AIF, each of the Q1, Q2, and Q3 2008 MD&As, Annual 2008 MD&A, amended Annual 2008 MD&A, each of the Q1, Q2 and Q3 2009, annual 2009 MD&A, and July 2008 and December 2009 Offering Memoranda;
  - (b) In a report dated April 1, 2009 and filed on SEDAR on April 2, 2009 (the "2009 Valuations"), Pöyry stated that "[t]he area of forest owned in Yunnan has quadrupled from around 10 000 ha to almost 40 000 ha over the past year,"

provided figures and tables regarding Yunnan, and stated that "Sino-Forest has increased its holding of broadleaf crops in Yunnan during 2008, with this province containing nearly 99% of its broadleaf resource." Pöyry's 2009 Valuations were incorporated in Sino's 2008 AIF, each of the Q1, Q2, Q3 2009 MD&As, Annual 2009 MD&A, June 2009 Offering Memorandum, and June 2009 and December 2009 Prospectuses;

- (c) In a "Final Report" dated April 23, 2010, filed on SEDAR on April 30, 2010 (the "2010 Valuations"), Pöyry stated that "Guangxi, Hunan and Yunnan are the three largest provinces in terms of Sino-Forest's holdings. The largest change in area by province, both in absolute and relative terms [sic] has been Yunnan, where the area of forest owned has almost tripled, from around 39 000 ha to almost 106 000 ha over the past year," provided figures and tables regarding Yunnan, stated that "Yunnan contains 106 000 ha, including 85 000 ha or 99% of the total broadleaf forest," stated that "the three provinces of Guangxi, Hunan and Yunnan together contain 391 000 ha or about 80% of the total forest area of 491 000 ha" and that "[a]lmost 97% of the broadleaf forest is in Yunnan," and provided a detailed discussion of Sino's Yunnan "holdings" at Appendixes 3 and 4. Pöyry's 2010 Valuations were incorporated in Sino's 2009 AIF, the annual 2009 MD&A, each of the Q1, Q2 and Q3 2010 MD&As, and the October 2010 Offering Memorandum;
- (d) In a "Summary Valuation Report" regarding "Valuation of Purchased Forest Crops as at 31 December 2010" and dated May 27, 2011, Pöyry provided tables and figures regarding Yunnan, stated that "[t]he major changes in area by species from December 2009 to 2010 has been in Yunnan pine, with acquisitions in Yunnan and Sichuan provinces" and that "[a]nalysis of [Sino's] inventory data for broadleaf forest in Yunnan, and comparisons with an inventory that Pöyry undertook there in 2008 supported the upwards revision of prices applied to the Yunnan broadleaf large size log," and stated that "[t]he yield table for Yunnan pine in Yunnan and Sichuan provinces was derived from data collected in this species in these provinces by Pöyry during other work;" and

(e) In a press release titled "Summary of Sino-Forest's China Forest Asset 2010 Valuation Reports" and which was "jointly prepared by Sino-Forest and Pöyry to highlight key findings and outcomes from the 2010 valuation reports," Pöyry reported on Sino's "holdings" and estimated the market value of Sino's forest assets on the 754,816 ha to be approximately US\$3.1 billion as at December 31, 2010.

### Misrepresentations Regarding the Failure to Disclose Sino's True History

- 156. In the Prospectuses, Sino described its history, but did not disclose the Alkaner petition, the true qualifications of Poon and Chan, that the SJXT investment was fictitious, or that the revenues generated by Leizhou were overstated.
- 157. In particular, the June 2007 Prospectus stated merely that:

The Corporation was formed under the Business Corporations Act (Ontario) upon the amalgamation of Mt. Kearsarge Minerals Inc. and 1028412 Ontario Inc. pursuant to articles of amalgamation dated March 14, 1994. The articles of amalgamation were amended by articles of amendment filed on July 20, 1995 and May 20, 1999 to effect certain changes in the provisions attaching to the Corporation's class A subordinate-voting shares and class B multiple-voting shares. On June 25, 2002, the Corporation filed articles of continuance to continue under the Canada Business Corporations Act. On June 22, 2004, the Corporation filed articles of amendment whereby its class A subordinate-voting shares were reclassified as Common Shares and its class B multiple-voting shares were eliminated.

158. Similarly, the June 2009 Prospectus stated only that:

The Corporation was formed under the Business Corporations Act (Ontario) upon the amalgamation of Mt. Kearsarge Minerals Inc. and 1028412 Ontario Inc. pursuant to articles of amalgamation dated March 14, 1994. The articles of amalgamation were amended by articles of amendment filed on July 20, 1995 and May 20, 1999 to effect certain changes in the provisions attaching to the Corporation's class A subordinate-voting shares and class B multiple-voting shares. On June 25, 2002, the Corporation filed articles of continuance to continue under the Canada Business Corporations Act. On June 22, 2004, the Corporation filed articles of amendment whereby its class A subordinate-voting shares were reclassified as Common Shares and its class B multiple-voting shares were eliminated.

## 159. Finally, the December 2009 Prospectus stated only that:

The Corporation was formed under the Business Corporations Act (Ontario) upon the amalgamation of Mt. Kearsarge Minerals Inc. and 1028412 Ontario Inc. pursuant to articles of amalgamation dated March 14, 1994. The articles of amalgamation were amended by articles of amendment filed on July 20, 1995 and May 20, 1999 to effect certain changes in the provisions attaching to the Corporation's class A subordinate-voting shares and class B multiple-voting shares. On June 25, 2002, the Corporation filed articles of continuance to continue under the Canada Business Corporations Act (the "CBCA"). On June 22, 2004, the Corporation filed articles of amendment whereby its class A subordinate-voting shares were reclassified as Common Shares and its class B multiple-voting shares were eliminated.

160. The failure to disclose the Alkaner petition, Chan's and Poon's true qualifications, and the true nature of and revenues from Sino's SJXT and Leizhou investments in the historical narrative in the Prospectuses rendered those Prospectuses false and misleading, inasmuch as those historical facts would have alerted persons who purchased Sino shares under the Prospectuses to the highly elevated risk of investing in an issuer that was managed by Poon and Chan.

# Misrepresentations Regarding Sino's Margins and Taxes

- 161. Sino never disclosed the true source of its elevated profit margins and the true nature of the tax-related risks to which it was exposed, as particularized above in paragraphs 113 to 118. This omission rendered each of the following statements a misrepresentation:
  - (a) In the 2006 Annual Financial Statements, note 11 [b] "Provision for tax related liabilities" and associated text;
  - (b) In the 2006 Annual MD&A, the subsection "Provision for Tax Related Liabilities" in the section "Critical Accounting Estimates," and associated text;
  - (c) In the AIF dated March 30, 2007, the section "Estimation of the Company's provision for income and related taxes," and associated text;

- (d) In the Q1 and Q2 2007 Financial Statements, note 5 "Provision for Tax Related Liabilities," and associated text;
- (e) In the Q3 2007 Financial Statements, note 6 "Provision for Tax Related Liabilities," and associated text;
- (f) In the 2007 Annual Financial Statements, note 13 [b] "Provision for tax related liabilities," and associated text;
- (g) In the 2007 Annual MD&A and Amended 2007 Annual MD&A, the subsection "Provision for Tax Related Liabilities" in the section "Critical Accounting Estimates," and associated text;
- (h) In the AIF dated March 28, 2008, the section "Estimation of the Corporation's provision for income and related taxes," and associated text;
- (i) In the Q1, Q2 and Q3 2008 Financial Statements, note 12 "Provision for Tax Related Liabilities," and associated text;
- (j) In the Q1, Q2 and Q3 2008 MD&As, the subsection "Provision for Tax Related Liabilities" in the section "Critical Accounting Estimates," and associated text;
- (k) In the 2008 Annual Financial Statements, note 13 [d] "Provision for tax related liabilities," and associated text;
- (I) In the 2008 Annual MD&A and Amended 2008 Annual MD&A, the subsection "Provision for Tax Related Liabilities" in the section "Critical Accounting Estimates," and associated text;
- (m) In the AIF dated March 31, 2009, the section "We may be liable for income and related taxes to our business and operations, particularly our BVI Subsidiaries, in amounts greater than the amounts we have estimated and for which we have provisioned," and associated text;

- (n) In the Q1, Q2 and Q3 2009 Financial Statements, note 13 "Provision for Tax Related Liabilities," and associated text;
- (o) In the Q1, Q2 and Q3 2009 MD&As, the subsection "Provision for Tax Related Liabilities" in the section "Critical Accounting Estimates," and associated text;
- (p) In the 2009 Annual Financial Statements, note 15 [d] "Provision for tax related liabilities," and associated text;
- (q) In the 2009 Annual MD&A, the subsection "Provision for Tax Related Liabilities" in the section "Critical Accounting Estimates," and associated text;
- (r) In the AIF dated March 31, 2010, the section "We may be liable for income and related taxes to our business and operations, particularly our BVI Subsidiaries, in amounts greater than the amounts we have estimated and for which we have provisioned," and associated text;
- (s) In the Q1 and Q2 2010 Financial Statements, note 14 "Provision for Tax Related Liabilities," and associated text;
- (t) In the Q1 and Q2 2010 MD&As, the subsection "Provision for Tax Related Liabilities" in the section "Critical Accounting Estimates," and associated text;
- (u) In the Q3 2010 Financial Statements, note 14 "Provision and Contingencies for Tax Related Liabilities," and associated text; and
- (v) In the Q3 2010 MD&As, the subsection "Provision and Contingencies for Tax Related Liabilities" in the section "Critical Accounting Estimates," and associated text;
- (w) In the 2010 Annual Financial Statements, note 18 "Provision and Contingencies for Tax Related Liabilities," and associated text;

- (x) In the 2010 Annual MD&A, the subsection "Provision and Contingencies for Tax Related Liabilities" in the section "Critical Accounting Estimates," and associated text; and
- (y) In the AIF dated March 31, 2011, the section "We may be liable for income and related taxes to our business and operations, particularly our BVI Subsidiaries, in amounts greater than the amounts we have estimated and for which we have provisioned," and associated text.
- 162. In every Impugned Document that is a financial statement, the line item "Accounts payable and accrued liabilities" and associated figures on the Consolidated Balance Sheets fails to properly account for Sino's tax accruals and is a misrepresentation.

# CHAN'S AND HORSLEY'S FALSE CERTIFICATIONS

- 163. Pursuant to National Instrument 52-109, the defendants Chan, as CEO, and Horsley, as CFO, were required at the material times to certify Sino's annual and quarterly MD&As and Financial Statements as well as the AIFs (and all documents incorporated into the AIFs). Such certifications included statements that the filings "do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made" and that the reports "fairly present in all material respects the financial condition, results of operations and cash flows of the issuer."
- 164. As particularized elsewhere herein, however, the Impugned Documents contained the Representation, which was false, as well as the other misrepresentations alleged above. Accordingly, the certifications given by Chan and Horsley were false and were themselves misrepresentations. Chan and Horsley made such false certifications knowingly or, at a minimum, recklessly.

#### THE TRUTH IS REVEALED

165. On June 2, 2011, Muddy Waters issued its initial report on Sino, and stated in part therein:

Sino-Forest Corp (TSE: TRE) is the granddaddy of China RTO frauds. It has always been a fraud – reporting excellent results from one of its early joint ventures – even though, because of TRE's default on its investment obligations, the JV never went into operation. TRE just lied.

The foundation of TRE's fraud is a convoluted structure whereby it claims to run most of its revenues through "authorized intermediaries" ("AI"). Als are supposedly timber trader customers who purportedly pay much of TRE's value added and income taxes. At the same time, these AIs allow TRE a gross margin of 55% on standing timber merely for TRE having speculated on trees.

The sole purpose of this structure is to fabricate sales transactions while having an excuse for not having the VAT invoices that are the mainstay of China audit work. If TRE really were processing over one billion dollars in sales through AIs, TRE and the AIs would be in serious legal trouble. No legitimate public company would take such risks – particularly because this structure has zero upside.

[...]

On the other side of the books, TRE massively exaggerates its assets. TRE significantly falsifies its investments in plantation fiber (trees). It purports to have purchased \$2.891 billion in standing timber under master agreements since 2006 [...]

[...]

Valuation

Because TRE has \$2.1 billion in debt outstanding, which we believe exceeds the potential recovery, we value its equity at less than \$1.00 per share.

166. Muddy Waters' report also disclosed that (a) Sino's business is a fraudulent scheme; (b) Sino systemically overstated the value of its assets; (c) Sino failed to disclose various related party transactions; (d) Sino misstated that it had enforced high standards of governance; (e) Sino misstated that its reliance on the AIs had decreased; (f) Sino misrepresented the tax risk

associated with the use of AIs; and (g) Sino failed to disclose the risks relating to repatriation of earnings from PRC.

167. After Muddy Waters' initial report became public, Sino shares fell to \$14.46, at which point trading was halted (a decline of 20.6% from the pre-disclosure close of \$18.21). When trading was allowed to resume the next day, Sino's shares fell to a close of \$5.23 (a decline of 71.3% from June 1).

#### SINO REWARDS ITS EXPERTS

- 168. Bowland, Hyde and West are former E&Y partners and employees. They served on Sino's Audit Committee but purported to exercise oversight of their former E&Y colleagues. In addition, Sino's Vice-President, Finance (Corporate), Thomas M. Maradin, is a former E&Y employee.
- 169. The charter of Sino's Audit Committee required that Ardell, Bowland, Hyde and West "review and take action to eliminate all factors that might impair, or be perceived to impair, the independence of the Auditor." Sino's practice of appointing E&Y personnel to its board and paying them handsomely (for example, Hyde was paid \$163,623 by Sino in 2010, \$115,962 in 2009, \$57,000 in 2008 and \$55,875 in 2007, plus options and other compensation) undermined the Audit Committee's oversight of E&Y.
- 170. E&Y's independence was impaired by the significant non-audit fees it was paid during 2008-2010, which total \$712,000 in 2008, \$1,225,000 in 2009 and \$992,000 in 2010.
- 171. Further, Andrew Fyfe, the former Asia-Pacific President for Pöyry Forestry Industry Ltd, was appointed Chief Operating Officer of Greenheart, and is the director of several Sino subsidiaries. Fyfe signed the Pöyry valuation report dated June 30, 2004, March 22, 2005, March 23, 2006, March 14, 2008 and April 1, 2009.

172. George Ho, Sino's Vice President, Finance (China), is a former Senior Manager of BDO.

### THE DEFENDANTS' RELATIONSHIP TO THE CLASS

- 173. By virtue of their purported accounting, financial and/or managerial acumen and qualifications, and by virtue of their having assumed, voluntarily and for profit, the role of gatekeepers, the Defendants had a duty at common law, informed by the Securities Legislation and/or the *CBCA*, to exercise care and diligence to ensure that the Impugned Documents fairly and accurately disclosed Sino's financial condition and performance in accordance with GAAP.
- 174. Sino is a reporting issuer and had an obligation to make timely, full, true and accurate disclosure of material facts and changes with respect to its business and affairs.
- 175. The Individual Defendants, by virtue of their positions as senior officers and/or directors of Sino, owed a duty to the Class Members to ensure that public statements on behalf of Sino were not untrue, inaccurate or misleading. The continuous disclosure requirements in Canadian securities law mandated that Sino provide the Impugned Documents, including quarterly and annual financial statements. These documents were meant to be read by Class Members who acquired Sino's Securities in the secondary market and to be relied on by them in making investment decisions. This public disclosure was prepared to attract investment, and Sino and the Individual Defendants intended that Class Members would rely on public disclosure for that purpose. With respect to Prospectuses and Offering Memoranda, these documents were prepared for primary market purchasers. They include detailed content as mandated under Canadian securities legislation, national instruments and OSC rules. They were meant to be read by the Class Members who acquired Sino's Securities in the primary market, and to be relied on by them in making decisions about whether to purchase the shares or notes under the Offerings to which these Prospectuses and Offering Memoranda related.

- 176. Chan and Horsley had statutory obligations under Canadian securities law to ensure the accuracy of disclosure documents and provided certifications in respect of the annual reports, financial statements and Prospectuses during the Class Period. The other Individual Defendants were directors of Sino during the Class Period and each had a statutory obligation as a director under the *CBCA* to manage or supervise the management of the business and affairs of Sino. These Individual Defendants also owed a statutory duty of care to shareholders under section 122 of the *CBCA*. In addition, Poon, along with Chan, co-founded Sino and has been its president since 1994. He is intimately aware of Sino's operations and as a long-standing senior officer, he had an obligation to ensure proper disclosure. Poon authorized, permitted or acquiesced in the release of the Impugned Documents.
- 177. BDO and E&Y acted as Sino's auditors and provided audit reports in Sino's annual financial statements that were directed to shareholders. These audit reports specified that BDO and E&Y had conducted an audit in accordance with Generally Accepted Auditing Standards, which was untrue, and included their opinions that the financial statements presented fairly, in all material respects, the financial position of Sino, the results of operations and Sino's cash flows, in accordance with GAAP. BDO and E&Y knew and intended that Class Members would rely on the audit reports and assurances about the material accuracy of the financial statements.
- 178. Dundee, Merrill, Credit Suisse, Scotia, CIBC, RBC, Maison, Canaccord and TD each signed one or more of the Prospectuses and certified that, to the best of its knowledge, information and belief, the particular prospectus, together with the documents incorporated therein by reference, constituted full, true and plain disclosure of all material facts relating to the securities offered thereby. These defendants knew that the Class Members who acquired Sino's Securities in the primary market would rely on these assurances and the trustworthiness that

would be credited to the Prospectuses because of their involvement. Further, those Class Members that purchased shares under these Prospectuses purchased their shares from these defendants as principals.

179. Credit Suisse USA, TD and Banc of America acted as initial purchasers or dealer managers for one or more of the note Offerings. These defendants knew that persons purchasing these notes would rely on the trustworthiness that would be credited to the Offering Memoranda because of their involvement.

### THE PLAINTIFFS' CAUSES OF ACTION

# Negligent Misrepresentation

- 180. As against all Defendants except Pöyry and the Underwriters, and on behalf of all Class Members who acquired Sino's Securities in the secondary market, the Plaintiffs plead negligent misrepresentation for all of the Impugned Documents except the Offering Memoranda.
- 181. Labourers and Wong, on behalf of Class Members who purchased Sino Securities in one of the distributions to which a Prospectus related, plead negligent misrepresentation as against Sino, Chan, Horsley, Poon, Wang, Martin, Mak, Murray, Hyde, BDO, E&Y, Dundee, Merril, Credit Suisse, Scotia, CIBC, RBC, Maison, Canaccord and TD for the Prospectuses.
- 182. Grant, on behalf of Class Members who purchased Sino Securities in one of the distributions to which an Offering Memorandum related, pleads negligent misrepresentation as against Sino, BDO and E&Y for the Offering Memoranda.
- 183. In support of these claims, the sole misrepresentation that the Plaintiffs plead is the Representation. The Plaintiffs do not plead any other misrepresentation in support of their negligent misrepresentation claims. For greater clarity, any misrepresentations other than the

Representation that are alleged in this Statement of Claim to have been made by some or all of the Defendants during the Class Period are pleaded only in support of the Plaintiffs' other claims.

- 184. The Representation is contained in the phrase "[e]xcept where otherwise indicated, all financial information reflected herein is determined on the basis of Canadian generally accepted accounting principles ("GAAP")." This phrase appears in the every annual and quarterly MD&A that is an Impugned Document. Sino and the Individual Defendants (for each, during the time he was a senior officer and/or director of Sino) made this statement or caused it to be made.
- 185. The Representation is also contained in the phrase "[t]he consolidated financial statements of Sino-Forest Corporation (the "Company") have been prepared [...] in accordance with Canadian generally accepted accounting principles." This phrase appears in every Audited Annual Financial Statement that is an Impugned Document. Every Interim Financial Statement that is an Impugned Document incorporated by reference that section of the relevant Audited Annual Financial Statement which contained that phrase. Sino and the Individual Defendants (for each, during the time he was a senior officer and/or director of Sino) made this statement, approved it and/or caused it to be made.
- 186. The Representation is also contained in the phrase "[t]he consolidated financial statements contained in this Annual Report have been prepared by management in accordance with Canadian generally accepted accounting principles." This phrase appears in every Audited Annual Financial Statement that is an Impugned Document. That statement was made by Sino, Chan and Horsley in the "Management's Report." The other Individual Defendants (for each,

during the time he was a senior officer and/or director of Sino) approved the statement and/or caused it to be made.

- 187. The Representation is contained in the phrase "[w]e prepare our financial statements in accordance with Canadian GAAP" found in the AIFs filed on March 31, 2009 and 2010. The Representation is also contained in the phrase "[p]rior to January 1, 2011, we have prepared our financial statements in accordance with Canadian GAAP" found in the AIF filed on March 31, 2011. The Impugned Documents that are Management Information Circulars incorporated the most recent AIF, Annual MD&A and Annual Financial Statements by reference and thus the Representation. Sino and the Individual Defendants (for each, during the time he was a senior officer and/or director) made these statements, approved them and/or caused them to be made.
- 188. The Representation is contained in the statement "[i]n our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company as at December 31, [years vary between documents] and the results of its operations and its cash flows for the year[s] then ended in accordance with Canadian generally accepted accounting principles," which was made by BDO and E&Y in every Audited Annual Financial Statement that was audited by them and that is an Impugned Document.
- 189. The Representation is further contained in the phrase "[t]he Corporation prepares its financial statements in accordance with Canadian GAAP" found in the Prospectuses. Sino, Chan, Horsley, Poon, Wang, Martin, Mak, Murray, Hyde (for each, during the time he was a senior officer and/or director), BDO, E&Y, Dundee, Merrill, Credit Suisse, Scotia, CIBC, RBC, Maison, Canaccord and TD (each for those Offerings in which it acted as underwriter), made this statement, approved it and/or caused it to be made.

- 190. Finally, the Representation is contained in the phrase "[w]e prepare our financial statements on a consolidated basis in accordance with accounting principles generally accepted in Canada ("Canadian GAAP")..." found in the Offering Memoranda. Sino, BDO and E&Y made this statement, approved it and/or caused it to be made.
- 191. The particular Impugned Documents in which particular Defendants made the Representation, approved of it or caused it to be made during the Class Period are set out in Schedule A.
- 192. The Representation was untrue: the Impugned Documents violated GAAP by, among other things, overstating to a material degree Sino's revenues, net income and assets, failing to disclose changes in accounting policies, understating Sino's tax accruals, and failing to disclose related party transactions.
- 193. The Impugned Documents were prepared for the purpose of attracting investment and inducing members of the investing public to purchase Sino securities. The Defendants knew and intended at all material times that those documents had been prepared for that purpose, and that the Class Members would rely reasonably and to their detriment upon such documents in making the decision to purchase Sino securities.
- 194. The Defendants further knew and intended that the information contained in the Impugned Documents would be incorporated into the price of Sino's publicly traded securities such that the trading price of those securities would at all times reflect the information contained in the Impugned Documents.
- 195. As set out in paragraphs 173 to 178 above, the Defendants, other than Pöyry, Credit Suisse USA and Banc of America, had a duty at common law to exercise care and diligence to

ensure that the Impugned Documents fairly and accurately disclosed Sino's financial condition and performance in accordance with GAAP.

- 196. These Defendants breached that duty by making the Representation as particularized above.
- 197. The Plaintiffs and the other Class Members directly or indirectly relied upon the Representation in making a decision to purchase the securities of Sino, and suffered damages when the falsity of the Representation was revealed on June 2, 2011.
- 198. Alternatively, the Plaintiffs and the other Class Members relied upon the Representation by the act of purchasing Sino securities in an efficient market that promptly incorporated into the price of those securities all publicly available material information regarding the securities of Sino. As a result, the repeated publication of the Representation in these Impugned Documents caused the price of Sino's shares to trade at inflated prices during the Class Period, thus directly resulting in damage to the Plaintiffs and Class Members.

Statutory Claims, Negligence, Oppression, Unjust Enrichment and Conspiracy Statutory Liability—Secondary Market under the Securities Legislation

- 199. The Plaintiffs intend to deliver a notice of motion seeking, among other things, an order granting leave to bring the statutory causes of action found in Part XXIII.1 of the OSA, and, if required, the equivalent sections of the Securities Legislation other than the OSA, against all Defendants except the Underwriters.
- 200. Each of the Impugned Documents except for the December 2009 and October 2010 Offering Memoranda is a "Core Document" within the meaning of the Securities Legislation.

- 201. Each of these Impugned Documents contained one or more misrepresentations as particularized above. Such misrepresentations and the Representation are misrepresentations for the purposes of the Securities Legislation.
- 202. Each of the Individual Defendants was an officer and/or director of Sino at material times. Each of the Individual Defendants authorized, permitted or acquiesced in the release of some or all of these Impugned Documents.
- 203. Sino is a reporting issuer within the meaning of the Securities Legislation.
- 204. E&Y is an expert within the meaning of the Securities Legislation. E&Y consented to the use of its statements particularized above in these Impugned Documents.
- 205. BDO is an expert within the meaning of the Securities Legislation. BDO consented to the use of its statements particularize above in these Impugned Documents.
- 206. Pöyry is an expert within the meaning of the Securities Legislation. Pöyry consented to the use of its statements particularized above in these Impugned Documents.
- 207. At all material times, each of Sino, Chan, Poon and Horsley, BDO and E&Y knew or, in the alternative, was wilfully blind to the fact, that the Impugned Documents contained the Representation and that the Representation was false, and that the Impugned Documents contained other of the misrepresentations that are alleged above to have been contained therein.
- Statutory Liability Primary Market for Sino's Shares under the Securities Legislation 208. As against Sino, Chan, Horsley, Wang, Martin, Mak, Murray, Hyde, Pöyry, BDO, E&Y, Dundee, Merrill, Credit Suisse, Scotia, CIBC, RBC, Maison, Canaccord and TD, and on behalf of those Class Members who purchased Sino shares in one of the distributions to which the June 2009 or December 2009 Prospectuses related, Labourers and Wong assert the cause of action set

forth in s. 130 of the OSA and, if necessary, the equivalent provisions of the Securities Legislation other than the OSA.

209. Sino issued the June 2009 and December 2009 Prospectuses, which contained the Representation and the other misrepresentations that are alleged above to have been contained in those Prospectuses or in the Sino disclosure documents incorporated therein by reference.

Statutory Liability – Primary Market for Sino's Notes under the Securities Legislation 210. As against Sino, and on behalf of those Class Members who purchased or otherwise acquired Sino's notes in one of the offerings to which the July 2008, June 2009 December 2009, and October 2010 Offering Memoranda related, Grant asserts the cause of action set forth in s. 130.1 of the OSA and, if necessary, the equivalent provisions of the Securities Legislation other than the OSA.

211. Sino issued the July 2008, June 2009, December 2009 and October 2010 Offering Memoranda, which contained the Representation and the other misrepresentations that are alleged above to have been contained in those Offering Memoranda or in the Sino disclosure. documents incorporated therein by reference.

#### Negligence Simpliciter - Primary Market for Sino's Securities

- 212. Sino, Chan, Poon, Horsley, Wang, Martin, Mak, Murray, Hyde, BDO, E&Y, Pöyry and the Underwriters (collectively, the "Primary Market Defendants") acted negligently in connection with one or more of the Offerings.
- 213. As against Sino, Chan, Horsley, Poon, Wang, Martin, Mak, Murray, Hyde, BDO, E&Y, Pöyry, Dundee, Merrill, Credit Suisse, Scotia, CIBC, RBC, Maison, Canaccord and TD, and on behalf of those Class Members who purchased Sino's Securities in one of the distributions to which those Prospectuses related, Labourers and Wong assert negligence simpliciter.

- 214. As against Sino, BDO, E&Y, Pöyry, Credit Suisse USA, Banc of America and TD, and on behalf of those Class Members who purchased Sino's Securities in one of the distributions to which the Offering Memoranda related, Grant asserts negligence simpliciter.
- 215. The Primary Market Defendants owed a duty of care to ensure that the Prospectuses and/or the Offering Memoranda they issued, or authorized to be issued, or in respect of which they acted as an underwriter, initial purchaser or dealer manager, made full, true and plain disclosure of all material facts relating to the Securities offered thereby, or to ensure that their opinions or reports contained in such Prospectuses and Offering Memoranda did not contain a misrepresentation.
- 216. At all times material to the matters complained of herein, the Primary Market Defendants ought to have known that such Prospectuses or Offering Memoranda and the documents incorporated therein by reference were materially misleading in that they contained the Representation and the other misrepresentations particularized above.
- 217. Chan, Poon, Horsley, Wang, Martin, Mak, Murray and Hyde were senior officers and/or directors at the time the Offerings to which the Prospectuses related. These Prospectuses were created for the purposes of obtaining financing for Sino's operations. Chan, Horsley, Martin and Hyde signed each of the Prospectuses and certified that they made full, true and plain disclosure of all material facts relating to the shares offered. Wang, Mak and Murray were directors during one or more of these Offerings and each had a statutory obligation to manage or supervise the management of the business and affairs of Sino. Poon was a director for the June 2007 share Offering and was president of Sino at the time of the June 2009 and December 2009 Offering. Poon, along with Chan, co-founded Sino and has been the president since 1994. He is intimately aware of Sino's business and affairs.

- 218. The Underwriters acted as underwriters, initial purchasers or dealer managers for the Offerings to which the Prospectuses and Offering Memoranda related. They had an obligation to conduct due diligence in respect of those Offerings and ensure that those Securities were offering at a price that reflected their true value or that such distributions did not proceed if inappropriate. In addition, Dundee, Merrill, Credit Suisse, Scotia, CIBC, RBC, Maison, Canaccord and TD signed one or more of the Prospectuses and certified that to the best of their knowledge, information and belief, the Prospectuses constituted full, true and plain disclosure of all material facts relating to the shares offered.
- 219. E&Y and BDO acted as Sino's auditors and had a duty to maintain or to ensure that Sino maintained appropriate internal controls to ensure that Sino's disclosure documents adequately and fairly presented the business and affairs of Sino on a timely basis.
- 220. Pöyry had a duty to ensure that its opinions and reports reflected the true nature and value of Sino's assets. Pöyry, at the time it produced each of the 2008 Valuations, 2009 Valuations, and 2010 Valuations, specifically consented to the inclusion of those valuations or a summary at any time that Sino or its subsidiaries filed any documents on SEDAR or issued any documents pursuant to which any securities of Sino or any subsidiary were offered for sale.
- 221. The Primary Market Defendants have violated their duties to those Class Members who purchased Sino's Securities in the distributions to which a Prospectus or an Offering Memorandum related.
- 222. The reasonable standard of care expected in the circumstances required the Primary Market Defendants to prevent the distributions to which the Prospectuses or the Offering Memoranda related from occurring prior to the correction of the Representation and the other misrepresentations alleged above to have been contained in the Prospectuses or the Offering

Memoranda, or in the documents incorporated therein by reference. Those Defendants failed to meet the standard of care required by causing the Offerings to occur before the correction of such misrepresentations.

- 223. In addition, by failing to attend and participate in Sino board and board committee meetings to a reasonable degree, Murray and Poon effectively abdicated their duties to the Class Members and as directors of Sino.
- 224. Sino, E&Y, BDO and the Individual Defendants further breached their duty of care as they failed to maintain or to ensure that Sino maintained appropriate internal controls to ensure that Sino's disclosure documents adequately and fairly presented the business and affairs of Sino on a timely basis.
- 225. Had the Primary Market Defendants exercised reasonable care and diligence in connection with the distributions to which the Prospectuses related, then securities regulators likely would not have issued a receipt for any of the Prospectuses, and those distributions would not have occurred, or would have occurred at prices that reflected the true value of Sino's shares.
- 226. Had the Primary Market Defendants exercised reasonable care and diligence in connection with the distributions to which the Offering Memoranda related, then those distributions would not have occurred, or would have occurred at prices that reflected the true value of Sino's notes.
- 227. The Primary Market Defendants' negligence in relation to the Prospectuses and the Offering Memoranda resulted in damage to Labourers, Wong, Grant and to the other Class Members who purchased Sino's Securities in the related distributions. Had those Defendants satisfied their duty of care to such Class Members, then those Class Members would not have

purchased the Securities that they acquired under the Prospectuses or the Offering Memoranda, or they would have purchased them at a much lower price that reflected their true value.

#### Unjust Enrichment of Chan, Martin, Poon, Horsley, Mak and Murray

- 228. As a result of the Representation and the other misrepresentations particularized above, Sino's shares traded, and were sold by Chan, Martin, Poon, Horsley, Mak and Murray, at artificially inflated prices during the Class Period.
- 229. Chan, Martin, Poon, Horsley, Mak and Murray were enriched by their wrongful acts and omissions during the Class Period, and the Class Members who purchased Sino shares from such Defendants suffered a corresponding deprivation.
- 230. There was no juristic reason for the resulting enrichment of Chan, Martin, Poon, Horsley, Mak and Murray.
- 231. The Class Members who purchased Sino shares from Chan, Martin, Poon, Horsley, Mak and Murray during the Class Period are entitled to the difference between the price they paid to such Defendants for such shares, and the price that they would have paid had the Defendants not made the Representation and the other misrepresentations particularized above, and had not committed the wrongful acts and omissions particularized above.

#### Unjust Enrichment of Sino

- 232. Throughout the Class Period, Sino made the Offerings. Such Offerings were made via various documents, particularized above, that contained the Representation and the misrepresentations particularized above.
- 233. The Securities sold by Sino via the Offerings were sold at artificially inflated prices as a result of the Representation and the others misrepresentations particularized above.

- 234. Sino was enriched by, and those Class Members who purchased the Securities via the Offerings were deprived of, an amount equivalent to the difference between the amount for which the Securities offered were actually sold, and the amount for which such securities would have been sold had the Offerings not included the Representation and the misrepresentations particularized above.
- 235. The Offerings violated Sino's disclosure obligations under the Securities Legislation and the various instruments promulgated by the securities regulators of the Provinces in which such Offerings were made. There was no juristic reason for the enrichment of Sino.

#### Unjust Enrichment of the Underwriters

- 236. Throughout the Class Period, Sino made the Offerings. Such Offerings were made via the Prospectuses and the Offering Memoranda, which contained the Representation and the other misrepresentations particularized above. Each of the Underwriters underwrote one or more of the Offerings.
- 237. The Securities sold by Sino via the Offerings were sold at artificially inflated prices as a result of the Representation and the other misrepresentations particularized above. The Underwriters earned fees from the Class, whether directly or indirectly, for work that they never performed, or that they performed with gross negligence, in connection with the Offerings, or some of them.
- 238. The Underwriters were enriched by, and those Class Members who purchased securities via the Offerings were deprived of, an amount equivalent to the fees the Underwriters earned in connection with the Offerings.

- 239. The Offerings violated Sino's disclosure obligations under the Securities Legislation and the various instruments promulgated by the securities regulators of the Provinces in which such Offerings were made. There was no juristic reason for the enrichment of the Underwriters.
- 240. In addition, some or all of the Underwriters also acted as brokers in secondary market transactions relating to Sino securities, and earned trading commissions from the Class Members in those secondary market transactions in Sino's Securities. Those Underwriters were enriched by, and those Class Members who purchased Sino securities through those Underwriters in their capacity as brokers were deprived of, an amount equivalent to the commissions the Underwriters earned on such secondary market trades.
- 241. Had those Underwriters who also acted as brokers in secondary market transactions exercised reasonable diligence in connection with the Offerings in which they acted as Underwriters, then Sino's securities likely would not have traded at all in the secondary market, and the Underwriters would not have been paid the aforesaid trading commissions by the Class Members. There was no juristic reason for that enrichment of those Underwriters through their receipt of trading commissions from the Class Members.

#### Oppression

- 242. The Plaintiffs and the other Class Members had a reasonable and legitimate expectation that Sino and the Individual Defendants would use their powers to direct the company for Sino's best interests and, in turn, in the interests of its security holders. More specifically, the Plaintiffs and the other Class Members had a reasonable expectation that:
  - (a) Sino and the Individual Defendants would comply with GAAP, and/or cause Sino to comply with GAAP;

- (b) Sino and the Individual Defendants would take reasonable steps to ensure that the Class Members were made aware on a timely basis of material developments in Sino's business and affairs;
- (c) Sino and the Individual Defendants would implement adequate corporate governance procedures and internal controls to ensure that Sino disclosed material facts and material changes in the company's business and affairs on a timely basis;
- (d) Sino and the Individual Defendants would not make the misrepresentations particularized above;
- (e) Sino stock options would not be backdated or otherwise mispriced; and
- (f) the Individual Defendants would adhere to the Code.

#### 243. Such reasonable expectations were not met as:

- (a) Sino did not comply with GAAP;
- (b) the Class Members were not made aware on a timely basis of material developments in Sino's business and affairs;
- (c) Sino's corporate governance procedures and internal controls were inadequate;
- (d) the misrepresentations particularized above were made;
- (e) stock options were backdated and/or otherwise mispriced; and
- (f) the Individual Defendants did not adhere to the Code
- 244. Sino's and the Individual Defendants' conduct was oppressive and unfairly prejudicial to the Plaintiffs and the other Class Members and unfairly disregarded their interests. These defendants were charged with the operation of Sino for the benefit of all of its shareholders. The value of the shareholders' investments was based on, among other things:

- (a) the profitability of Sino;
- (b) the integrity of Sino's management and its ability to run the company in the interests of all shareholders;
- (c) Sino's compliance with its disclosure obligations;
- (d) Sino's ongoing representation that its corporate governance procedures met with reasonable standards, and that the business of the company was subjected to reasonable scrutiny; and
- (e) Sino's ongoing representation that its affairs and financial reporting were being conducted in accordance with GAAP.
- 245. This oppressive conduct impaired the ability of the Plaintiffs and other Class Members to make informed investment decisions about Sino's securities. But for that conduct, the Plaintiffs and the other Class Members would not have suffered the damages alleged herein.

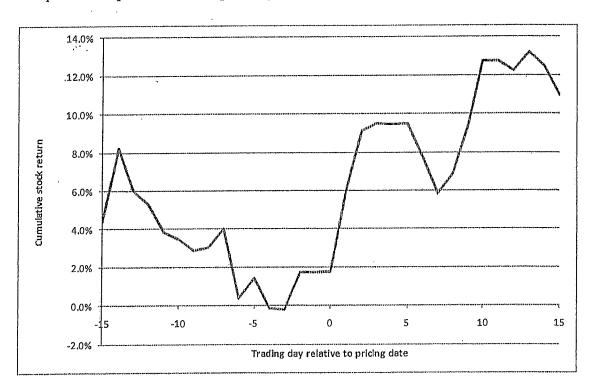

#### Conspiracy

- 246. Sino, Chan, Poon and Horsley conspired with each other and with persons unknown (collectively, the "Conspirators") to inflate the price of Sino's securities. During the Class Period, the Conspirators unlawfully, maliciously and lacking bona fides, agreed together to, among other things, make the Representation and other misrepresentations particularized above, and to profit from such misrepresentations by, among other things, issuing stock options in respect of which the strike price was impermissibly low.
- 247. The Conspirators' predominant purposes in so conspiring were to:
  - (a) inflate the price of Sino's securities, or alternatively, maintain an artificially high trading price for Sino's securities;
  - (b) artificially increase the value of the securities they held; and

- (c) inflate the portion of their compensation that was dependent in whole or in part upon the performance of Sino and its securities.
- 248. In furtherance of the conspiracy, the following are some, but not all, of the acts carried out or caused to be carried out by the Conspirators:
  - (a) they agreed to, and did, make the Representation, which they knew was false;
  - (b) they agreed to, and did, make the other misrepresentations particularized above, which they knew were false;
  - (c) they caused Sino to issue the Impugned Documents which they knew to be materially misleading;
  - (d) as alleged more particularly below, they caused to be issued stock options in respect of which the strike price was impermissibly low; and
  - (e) they authorized the sale of securities pursuant to Prospectuses and Offering Memoranda that they knew to be materially false and misleading.
- 249. Stock options are a form of compensation used by companies to incentivize the performance of directors, officers and employees. Options are granted on a certain date (the 'grant date') at a certain price (the 'exercise' or 'strike' price). At some point in the future, typically following a vesting period, an options-holder may, by paying the strike price, exercise the option and convert the option into a share in the company. The option-holder will make money as long as the option's strike price is lower than the market price of the security at the moment that the option is exercised. This enhances the incentive of the option recipient to work to raise the stock price of the company.
- 250. There are three types of option grants:

- (a) 'in-the-money' grants are options granted where the strike price is lower than the market price of the security on the date of the grant; such options are not permissible under the TSX Rules and have been prohibited by the TSX Rules at all material times;
- (b) 'at-the-money' grants are options granted where the strike price is equal to the market price of the security on the date of the grant or the closing price the day prior to the grant; and
- (c) 'out-of-the-money' grants are options granted where the strike price is higher than the market price of the security on the date of the grant.
- 251. Both at-the-money and out-of-the-money options are permissible under the TSX Rules and have been at all material times.
- 252. The purpose of both at-the-money and out-of-the-money options is to create incentives for option recipients to work to raise the share price of the company. Such options have limited value at the time of the grant, because they entitle the recipient to acquire the company's shares at or above the price at which the recipient could acquire the company's shares in the open market. Options that are in-the-money, however, have substantial value at the time of the grant irrespective of whether the company's stock price rises subsequent to the grant date.
- 253. At all material times, the Sino Option Plan (the "Plan") prohibited in-the-money options.
- 254. The Conspirators backdated and/or otherwise mispriced Sino stock options, or caused the backdating and/or mispricing of Sino stock options, in violation of, inter alia: (a) the OSA and the rules and regulations promulgated thereunder; (b) the Plan; (c) GAAP; (d) the Code; (e) the TSX Rules; and (f) the Conspirators' statutory, common law and contractual fiduciary duties and duties of care to Sino and its shareholders, including the Class Members.

- 255. The Sino stock options that were backdated or otherwise mispriced included those issued on June 26, 1996 to Chan, January 21, 2005 to Horsley, September 14, 2005 to Horsley, June 4, 2007 to Horsley and Chan, August 21, 2007 to Sino insiders other than the Conspirators, November 23, 2007 to George Ho and other Sino insiders, and March 31, 2009 to Sino insiders other than the Conspirators.
- 256. The graph below shows the average stock price returns for fifteen trading days prior and subsequent to the dates as of which Sino priced its stock options to its insiders. As appears therefrom, on average the dates as of which Sino's stock options were priced were preceded by a substantial decline in Sino's stock price, and were followed by a dramatic increase in Sino's stock price. This pattern could not plausibly be the result of chance.

257. The conspiracy was unlawful because the Conspirators knowingly and intentionally committed the foregoing acts when they knew such conduct was in violation of, *inter alia*, the

OSA, the Securities Legislation other than the OSA, the Code, the rules and requirements of the TSX (the "TSX Rules") and the CBCA. The Conspirators intended to, and did, harm the Class by causing artificial inflation in the price of Sino's securities.

258. The Conspirators directed the conspiracy toward the Plaintiffs and the other Class Members. The Conspirators knew in the circumstances that the conspiracy would, and did, cause loss to the Plaintiffs and the other Class Members. The Plaintiffs and the Class Members suffered damages when the falsity of the Representation and other misrepresentations were revealed on June 2, 2011.

### THE RELATIONSHIP BETWEEN SINO'S DISCLOSURES AND THE PRICE OF SINO'S SECURITIES

- 259. The price of Sino's securities was directly affected during the Class Period by the issuance of the Impugned Documents. The Defendants-were aware at all material times of the effect of Sino's disclosure documents upon the price of its Sino's securities.
- 260. The Impugned Documents were filed, among other places, with SEDAR and the TSX, and thereby became immediately available to, and were reproduced for inspection by, the Class Members, other members of the investing public, financial analysts and the financial press.
- 261. Sino routinely transmitted the documents referred to above to the financial press, financial analysts and certain prospective and actual holders of Sino securities. Sino provided either copies of the above referenced documents or links thereto on its website.
- 262. Sino regularly communicated with the public investors and financial analysts via established market communication mechanisms, including through regular disseminations of their disclosure documents, including press releases on newswire services in Canada, the United

States and elsewhere. Each time Sino communicated that new material information about Sino financial results to the public the price of Sino securities was directly affected.

- 263. Sino was the subject of analysts' reports that incorporated certain of the material information contained in the Impugned Documents, with the effect that any recommendations to purchase Sino securities in such reports during the Class Period were based, in whole or in part, upon that information.
- 264. Sino's securities were and are traded, among other places, on the TSX, which is a efficient and automated market. The price at which Sino's securities traded promptly incorporated material information from Sino's disclosure documents about Sino's business and affairs, including the Representation, which was disseminated to the public through the documents referred to above and distributed by Sino, as well as by other means.
